

Dear Customer:

Have you been thinking about upgrading an old, inefficient oil boiler or furnace? Is your oil storage tank old and a potential leak hazard?

We can now offer you a \$300.00 rebate for a new furnace or boiler, and \$200.00 for the new aboveground storage tank, thanks to the Upgrade and Save – LI rebate program. These rebates are in addition to any other financing or tax credits which may be available.

UPGRADE AND SAVE - LI Rebates are only available for installations in Nassau or Suffolk County, and must be processed through a registered local Oilheat dealer.

Visit **UpgradeAndSaveLI.com** for more information, and please call us to set up a no-obligation consultation of your home heating system.

Thank you.
